

WORKING WITH GOOGLE EARTH ENGINE 3

TO SEARCH, FIND AND VISUALIZE A BROAD RANGE OF REMOTELY
SENSED DATASETS

More Examples

SENTINEL 2 IMAGERIES

Exporting Single Image

```
var AOI = ee.FeatureCollection("users/arjumanduspcasw/Clip4DEMPLB");  
var PLBDEM = ee.Image("USGS/SRTMGL1_003")  
  .clip(AOI);  
  
Map.centerObject(AOI, 9);  
  
Map.addLayer(PLBDEM, {}, 'Elevation');  
  
Export.image(PLBDEM);
```

Viewing Band Combination

```
var polygon = ee.FeatureCollection("users/engrpreh05/CCA_Malwa"),
    sent2 = ee.ImageCollection("COPERNICUS/S2_SR");
var image = ee.Image(sent2
    .filterDate("2019-05-01", "2019-05-30")
    .filterBounds(polygon)
    .sort("CLOUD_COVERAGE_ASSESSMENT")
    .first()
    .clip(polygon)
);
Map.centerObject(polygon, 9);
```

Mosaicing All indices in a single image
